

Accounting B.B.A. Degree

Managerial Accounting Concentration

Accounting = Respect + Opportunity + Reward

Management Accounting

"A management accountant applies his or her professional knowledge and skill in the preparation and presentation of financial and other decision oriented information in such a way as to assist management in the formulation of policies and in the planning and control of the operation of the undertaking". Management accountants therefore are seen as the "value-creators" amongst the accountants. They are much more interested in forward looking and taking decisions that will affect the future of the organization, than in the historical recording and compliance (score keeping) aspects of the profession. Management accounting knowledge and experience can therefore be obtained from varied fields and functions within an organization, such as information management, treasury, efficiency auditing, marketing, valuation, pricing, logistics, etc. - Institute of Certified Management Accountants (ICMA)

Accounting at EKU

The accounting program at EKU is designed to provide students with the solid educational foundation that employers expect of today's graduates. This foundation not only includes the technical accounting knowledge necessary to successfully pass the various professional examinations, but also includes a strong general business background that allows accounting professionals to move quickly into upper management positions or become business entrepreneurs themselves.

Career Paths

Accounting has long been one of the most respected and trusted professions. Demand for accounting graduates and starting salaries in accounting have consistently been among the highest for new college graduates. Nationally, eighty percent of accounting graduates end up in management accounting positions. The accounting degree with the Managerial Accounting Concentration opens the door to professional possibilities in business and industry and can lead to: Certified Management Accountant (CMA), Certified Internal Auditor (CIA), among others.
